PROFESSIONAL SUMMARY:-

I am a skilled **Frontend Developer** with expertise in building responsive, user-centric web applications using **React.js** and modern JavaScript. I have extensive experience implementing robust **form validation** solutions with **Formik** and **Yup**, ensuring smooth and error-free user interactions. I'm adept at utilizing **Redux Toolkit (RTK)** for efficient state management and data handling, and I leverage the **Context API** to manage global state and optimize component re-rendering in complex applications. Although I don't have professional experience yet, I have worked on personal and academic projects, including developing full-stack web applications. I'm passionate about learning, building, and optimizing solutions using the **MERN stack**, and I'm eager to contribute my skills to real-world projects.

Education:-

B.Tech (Bachelor of Technology) in Computer Science
RSR - Rungta college of Engineering & Technology, Bhilai Chhattisgarh
CSVTU University Bhilai

CGPA-7.2 **Graduation Year – 2025**

12th (Physics, Chemistry, Mathematics)

PER-91% **Graduation Year – 2021**

SKILLS AND ACCOMPLISHMENTS:-

- **MERN Stack Development:** MongoDB | Express.js | React.js | Node.js
- **Programming Languages:** JavaScript
- **Frontend Development:** React JS | HTML5 | CSS3 | Tailwind | SPA | ES6 | RTK
- **Backend Development:** Node.js | Express.js | API design MVC | architecture.
- **Databases:** MongoDB.
- **Version Control & Collaboration:** Git | GitHub
- **Web Design & Development:** Web Designing | REST API | JSON | Responsive Web Design.

Project:-

Grocery web-app (Mern Stack)

- **Technology Stack:** Built with MERN stack (MongoDB, Express.js, React.js, Node.js).
- **User Authentication:** Secure login with JWT for property owners and clients.
- **Real-Time Chat:** Socket.io integration for instant communication between clients and property owners.
- **Performance Optimization:** Node.js caching to reduce API response time by 85%.
- **State Management:** Utilized Context API to manage application state efficiently.
- **SPA Interface:** Developed Single Page Application (SPA) for smooth navigation and responsiveness.
- **Property Listings:** Clients can browse and search properties with detailed listings including images, descriptions, and pricing.
- **User Experience:** Designed a user-friendly interface for easy property browsing and booking.
